UAccess Employee: PeopleSoft HCM 9.2 Upgrade Project

Human Resources | Systems Control | University Information Technology Services

What is PeopleSoft HCM?

UAccess Employee is the University of Arizona’s branded version of the PeopleSoft Human Capital Management (HCM) application.

Why Are We Upgrading?

The Goal is to:

- Simplify users’ system Interaction to improve their experience by introducing new functionality such as activity-driven navigation
- Ensure tax, regulatory and security compliance
- Reduce maintenance costs with tools that enable release selection instead of bundled

Overview – Upgrading to PeopleSoft 9.2

PeopleSoft HCM Upgrade from version 9.0 to 9.2:

- Enables the university to leverage the latest technologies and innovative solutions that support strategic goals, business objectives and meet regulatory requirements
- Enhances the end user experience and delivers a more intuitive and easy to use application
- Features on-going support that includes critical alerts and data fixes which will be discontinued in the current version

When is the Upgrade Scheduled?

The project’s estimated “Go Live” date is October 19, 2015
